

Welcome to MBS!

Welcome to MBS! It is an honour for us to have the opportunity to tell you a bit more about what we do. We don't use search engines or similar methods to increase our profile, both online and offline. We rely primarily on good, old word of mouth. Thus, your presence here means that you have either spoken to one of us directly or were referred by someone who has done so. And, because you've decided to check us out, we just want to say ... THANK YOU! Our motto comes from the writings of one of the greatest business minds of 20th century, Peter Drucker - "Automation is not technical in character". Being great believers ourselves, we simply use technology to deliver measurable outcomes to our customers. Our focus is solely in the following two areas:

- achieving higher organisational performance through continuous monitoring, improved business intelligence and better change management - Bagheera-S™;
- consistent and measurable reduction of power consumption by desktop and laptops - Forrestria™.

In each area we provide a specific solution tailored to an organisation. Please click on the buttons below to learn more.
